BRIDE'S DOUBLE

Girl Killed Bridegroom and Committed Suicide on Wedding Night.

SHOT HUSBAND THRICE.

Then Child-Wife Sent Bullets Into Her Mouth and Also Through Her Temple.

TFFOLK, Va., Nov. 10.—Randolph Johnson and his bride, who was in Hope, daughter of a farmer and C., who were found dead on the then ended her own life, will be

uried to-day. Why this child-bride should have resorted to murdering her husband and then to suicide, only a few hours after to-day there are those who say something must have occurred on needay night that made her so desperate her mind became unhinged.

Johnson has been in love with this

since she was a mere infant. When wore short dresses and was a pupil at the country school Johnson courted her and loved her faithfully.

The wedding was an event of social importance in Perquemin County.
Everyboly who was anybody in those parts was there. Following the ceremony there was a dance. The bride danced with the boys of the country-

regretted her marriage after one of
these dances.

Johnson had prepared a new home
for his bride. When the dance was

Johnson and the girl-bride drove to this
home. That was the last seen of them

CHEAP CURE FOR THE WHITE PLAGUE

Columbia College of Physicians and Surgeons Treats Poor at Home.

After two years of experimenting, the ons yesterday announced that they met with satisfactory results in cure of tuberculosis. The method makes it unnecessary for the patient to stay in a sanitarium, and all of the treatment is carried on in the s of the patient.

The faculty regard their method as peculiarly advantageous, because it reaches the poor, doing away with the arge item of expense incurred when the patient goes to a sanitarium. Medi-cine is given to him when necessary, a hight charge being made if he is able

cine is given to him when necessary, a sight charge being made if he is able to pay it.

Each patient is placed in the care of a visiting nurse. She visits him and his family in their home and supplements the physician's advice by further instructions regarding hygiene. She reports to the physician the condition found at the home, whether any relief is needed and whether the instructions given to the patient are carried out.

In the two years in which the plan has been in operation there ususally have been about one hundred cases under treatment at one time. In the year ending Sept. 30, 1908, the number of patients treated was 408 and the number of visits madeby the nurses was 2.768. Various charitable institutions in this city willingly have co-operated with Columbia in this work. Many of the families of patients are sent away from the city during the summer, thus receiving a much needed outing.

Milk has been supplied by the Diet Kitonen Association, at first free, but later it was paid for out of a special field. Eggs are given to some of the net by pat ants. Considerable relief has also been afforded by giving at times cast-oft clothing.

The nurses' salaries were paid by Mrs. W. K. Vanderbilt out of the fund given by her for the establishing of district nursing from the dispensaries. The other expenses have not been large, amounting in 1908 to only \$21.749 for the total number of patients treated. This is small when compared with the cost of a single patient in a hospital or a sanitarium.
